

FOR IMMEDIATE RELEASE –

ENRICH AND IMPROVE THE HORSE-HUMAN RELATIONSHIP

Pagosa Springs, CO – In keeping with Linda & Pat Parelli's philosophy of constant improvement, Parelli Natural Horsemanship presents the compelling new educational program: "Liberty & Horse Behavior." With this latest development in understanding the nature and psychology of horses, Linda and Pat Parelli share the secrets of how to "read" the equine mind.

"For years, I watched Pat work with different horses and, afterwards, I would corner him to ask, 'Why did you do that with this particular horse, why at that exact time?' and Pat would tell me the clues to reading what each horse needed," explains Linda Parelli. This program is the result of Linda's patient persistence as she mined the depths of Pat's brain, combined with Linda's own research, study and experience.

Presented by Linda and Pat as they teach a group of students, "Liberty & Horse Behavior" is designed to educate, inspire, expand and enrich the horse-human relationship. The LHB Pack includes six "Horse Behavior" DVDs on the ultimate savvy of reading horses - packed with over 14 hours of information, simulations and demonstrations. Three "Games" DVDs are loaded with new and creative ideas on how to expand the Seven Games and keep your horse thinking, "How interesting!"

A "Problem Solving" DVD features six students and their horses, as Linda leads them to read and play with each unique "horse-onality," making changes to their equine partners in real-time. A handy Pocket Guide provides clear reminders of Vital Information in an easy-to-use format.

The Parelli Puzzles booklet is an ingenious new tool that jump-starts your imagination to create a never-ending source of provocative, purposeful challenges for you and your horse. The Leadership Chart allows you to track your progress, as you become the leader your horse needs. "LHB" is an essential element in the Integrated Parelli Natural Horsemanship Home-Study Program.
