

PARELLI 2008 USA TOUR PROGRAM

"Way More Than Riding"

Why do thousands of horse lovers give up?

They get frustrated, hurt, criticized and pressured.

And the horse is often given the blame...

he's crazy, lazy, unpredictable, undependable, stubborn, dangerous...

EVERYTHING you've dreamed about and want to do with your horse CAN be accomplished without force, fear or frustration... for both you and your horse!

Day One (9am - 5pm)

SESSION ONE - Reveal Your Horse

The Horsenality Breakthrough [9am - 10.30am]

Just like people, horses are individuals. They have individual characters, likes, dislikes, fears and needs that you need to know about.

Twitches, drugs, severe bits, sharp spurs, tie downs, mechanics, intimidation, even cruelty are a common and accepted ways of dealing with resistant, disobedient and uncontrollable horses. Even new horse owners fall into these ways because they don't know how else to do it.

Trouble with horses occurs because we treat them all the same, but horses have different characters and they need to be treated differently. Until you do, many horses can masquerade as something other than who they really are.

In this session you will learn how to identify who your horse really is and exactly how he needs to be approached. You'll discover the keys to what you need: a calmer horse; more trust; obedience; and motivation.

"If I hadn't found this program, my horse would have gone to the killers. And it was not his fault. I didn't understand him and neither did my trainer..."

"I found out that everything I was doing was the opposite of what I needed to do for my Left Brain Introvert. He runs to me now when he sees me!"

"It was hard at first because I had to admit that I was making my horse crazy. Once I got over feeling bad I started to read my horse more accurately and do the things that worked for him instead of just trying to make him behave. My friends just cannot believe that this is the same horse, they said that horses can't change. They're right... it was my approach that had to change."

SESSION TWO - Discover Your Potential

How good are you with horses... in your horse's opinion?

The horse world does not measure horsemanship, certainly not the way a horse does. Horses don't care who you are, how rich, how poor, how many medals.... they care about how you make them feel, how you teach them, how calm and safe they feel around you and how much fun it is.

We teach people to become skilled with horses both on the ground and riding — history has proven this! Did you know that many of today's top clinicians were Parelli students, not to mention the hundreds of thousands of horse lovers who have become safer, are having more fun, and are doing more than they ever imagined possible with their horse? Many of our program graduates have even become highly successful Parelli Professionals.

How good does your horse want you to get? Learn about the four specific areas you need to become skilled, in both on the ground and when riding and how to get there step-by-step. The focus is on developing you as a Horseman, who can prevent and solve your own problems, know how to teach horses.... someone who would even impress the horse!

"My dream was just to get my horse under control without using all those horrible bits and cruel devices. I had no idea I could get this good with horses. The people at my barn are now asking me to help them!"

"When I saw horses running to be with their owner, staying focused and connected despite all the other horses running around too, I was hooked. I knew I wanted that and until now I had no idea it was possible."

"Until I saw it with my own eyes I would never have believed a horse could be in perfect control without a bridle. I always thought there was some trick to it, some kind of force or fear attached."

"I wish every dressage rider would learn this program, the similarity between Parelli and Classical dressage principles is incredible. I have a lot of respect for what they do"—Walter Zettl, Modern Master and author of the DVD Series "A Matter of Trust," and books such as "Dressage in Harmony."

SESSION THREE – Reveal The Truth

The Challenging Horse Demystified

Pat Parelli takes a challenging horse and solves problems using the principles he's become famous for. Reading the horse, revealing the Horsenality, developing trust on the ground first. This is a transformation you don't want to miss!

"Watching him on television is fascinating, but in person you feel the mastery. There's nothing like being there to see it, the air is electric. Best of all, the man knows how to talk. He's passionate about teaching us everything he knows."

"If I hadn't been there, I would have thought it was all a trick. I didn't know that was possible with horses and it's so logical."

"I've seen over 20 demonstrations by Pat Parelli. They just get better and better, and I thought the first one was the best I'd ever seen."

"I met Pat Parelli when he was 25. I told my wife that by the time he is 40, this man will be the best horseman the world has ever seen. I called him and wished him happy birthday, and that was 14 years ago. His contribution to the horse world is significant. He started a revolution."—Dr. R.M. Miller, DVM, author of many books including Foal Imprinting and "The Revolution in Horsemanship."

Day Two (10am - 4pm)

A Savvy Club Exclusive, Members Only Event:

(New members from Day One are welcome to attend too)

Savvy Club Members and their Guests (with Buddy Passes) attend Day 1 and 2 for FREE!

"By revealing your horse and discovering your potential... you WILL live your dream." —Pat Parelli

Gain new insights and understandings up close and personal with Linda & Pat Parelli. This day is completely devoted to the dedicated student and features Pat and Linda's top and upcoming young horses.

SESSION ONE - Watch Pat and Linda "Behind the Scenes"

Linda and Pat play with their horses, teaching and developing them. Then, hear their thoughts and comments about what they achieved, what was going on for their horses, how they handled any situations that came up, etc.

SESSION TWO - The Teacher At Work

Linda Parelli coaches a Savvy Team member with their horse, helping them to solve any road blocks on their horsemanship journey through the Levels, or to challenge them if they aren't having any problems!

SESSION THREE - The Master At Work

Pat Parelli plays with a horse from the Savvy Team, showing how he would test what the horse already understands and then develop him to the next stage!
